

TECHNOLOGY THAT CREATES
PROFESSIONAL MAILINGS

HJ3630

PRODUCTION ADDRESSING SOLUTION COMBINES FLEXIBILITY WITH EXCEPTIONAL PRINT QUALITY

The HJ3630 is a unique and versatile system that provides superior production address printing. The HJ3630 works as either a standalone address printing solution or in line with other mail processing equipment such as a folder/insertor or mailing system. Whether you're designing a new production mail environment or expanding your existing mailing operation, the HJ3630 integrates seamlessly with your existing equipment. Either way, it can be your total addressing solution.

This fixed head printer has robotic print head positioning, which remembers the address position by envelope size or print job, keeping repetitive print jobs consistent with each mail run. This unique feature reduces set up time, speeding up job turnaround. The HJ3630 can accommodate nearly any size document, providing high quality, 600 dpi address, barcode, text and graphics for a professional mailpiece every time.

The HJ3630 is perfect for both mid-size corporate environments and for production mail centers, easily meeting your needs for ultimate flexibility and tight deadlines. It is the ideal system for universities, quick printers, membership organizations, direct mail services and so much more.

HASLER
America's better choice.®

A SUITE OF VALUE-ADDED HASLER PRODUCTS THAT EFFICIENTLY COMPLETE YOUR TOTAL MAILING SOLUTION

Today's fast-paced and demanding business environment requires a total mailing solution, one that provides the capabilities to meet all your demands, while giving you control and transparency of every mail-related function. The Hasler HJ3630 address printer will dramatically increase efficiency by helping you operate at peak performance and meet important deadlines.

To truly maximize productivity and achieve mail center savings, consider integrating other cost-effective Hasler equipment into your mailing operations, including mailing systems, folder/inserters and mail center management software. Each of the products and services listed below will add processing speed, enhanced performance and a professional appearance to your mail. Hasler has the total mailing solution to meet all your important processing needs, today and as your mail volume grows in the future.
