

MAIL CENTER TECHNOLOGY FOR
PROFESSIONAL MAILINGS

HJ3640

FLEXIBILITY AND EXCEPTIONAL PRINT QUALITY IN A PRODUCTION ADDRESSING SOLUTION

The HJ3640 is a superior, heavy-duty production address printer that is as unique as it is versatile. Perfect for higher volume mail centers, the HJ3640 works as either a standalone address printing solution, or in line with other mail processing equipment such as a folder/insertor or mailing system. Whether you're designing a new production mail environment or expanding your existing mailing operation, the HJ3640 integrates seamlessly with your existing equipment.

Not only is it the only address printer in its price range to offer a 6" print area, it is also print configurable, allowing users to add up to 12 print heads. This fixed head printer has variable print head positioning, which allows you to place addresses, graphics, teaser messages or even a postal permit anywhere on the mailpiece. And the more personalized the mailpiece, the greater the chance it will be opened and responded to.

Accommodating nearly any size document, the HJ3640 utilizes a vacuum base system to reduce the chance of misfeeds while providing up to a 600 dpi address, postal barcode, text and graphics for a professional mailpiece every time. It will easily meet your needs for ultimate flexibility and tight deadlines, and is the ideal system for universities, quick printers, membership organizations, direct mail services and so much more.

HASLER
America's better choice.®

A SUITE OF VALUE-ADDED HASLER PRODUCTS THAT EFFICIENTLY COMPLETE YOUR TOTAL MAILING SOLUTION

Today's fast-paced, high-productivity office environment requires a total mailing solution, one that provides the capabilities to meet all your demands, while giving you control and transparency of every mail-related function. Hasler's HJ3640 address printer will dramatically increase office efficiency by helping you operate at peak performance and meet important deadlines.

And to truly maximize productivity and achieve mail center savings, consider integrating other cost-effective Hasler equipment into your mailing operations, including mailing systems, folder/inserters and mail center management software. Each of the products and services listed below will add processing speed, enhanced performance and a professional appearance to your mail. Hasler has the total mailing solution to meet all your important processing needs, today and as your mail volume grows in the future.
